ASX Austraclear Software Installation Guide – File Deployment

Uninstall Instructions

PLEASE NOTE: If you have a previous version of the system installed, it is recommended that you uninstall the previous version after a day of successful logon to the new version.

To uninstall the current client, go to *Control Panel* and click on **Program and Features**

Choose *Austraclear Client* and then click on **Remove**

Installation Instructions

NOTE: To install the ASX Austraclear system, Administrative rights to the PC are required. The installation may need to be completed by the appropriate IT / PC support staff.

1 Installing Software

Prerequisites

Installed Microsoft .Net Framework version 4.8 or above. This version can be downloaded from “Links” on the Application Page. This requires administrator privilege. This will need to be installed prior to the installation of the **ASX Austraclear client for the first time**.

The ASX Austraclear installation package is available on the <https://www.asxonline.com/public/documents/austraclear-technical-documents.html> under ‘Austraclear Software’.

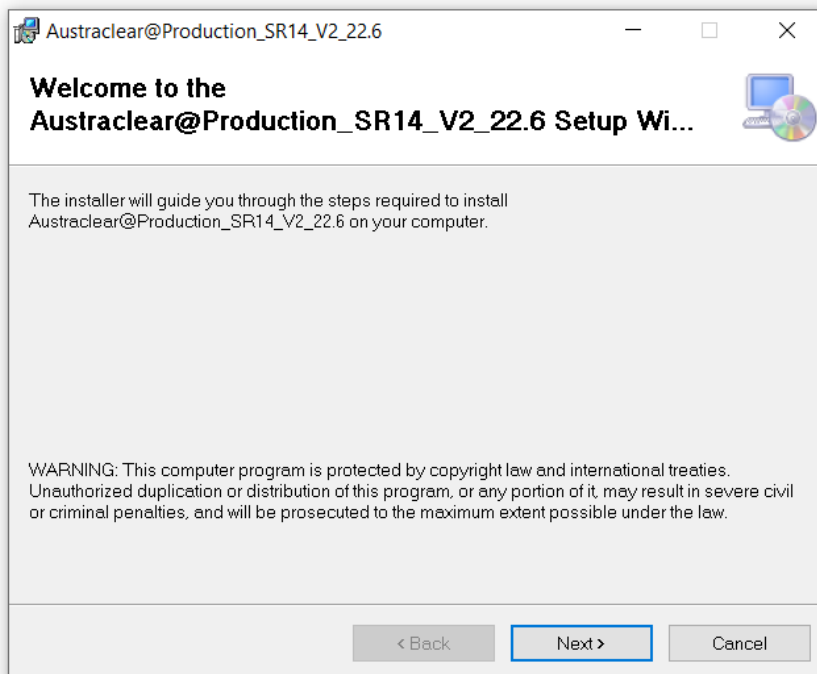

Click on the link

https://www.asxonline.com/content/dam/asxonline/public/software/EXIGOCSDInstaller_2.22.6_PROD.zip for the Production Environment to initiate the download of the File Deployment application:

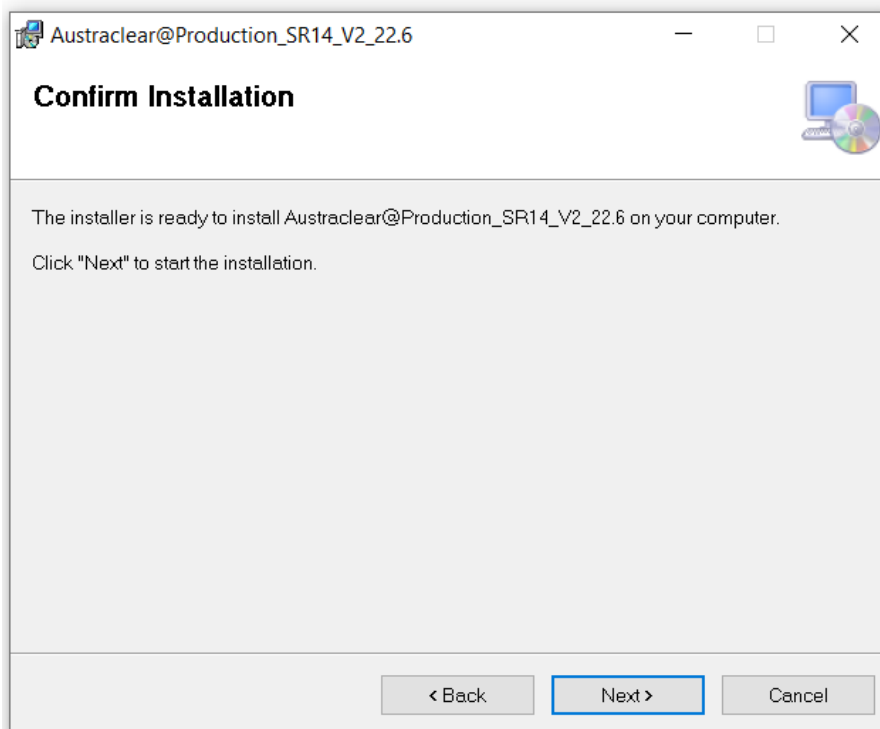

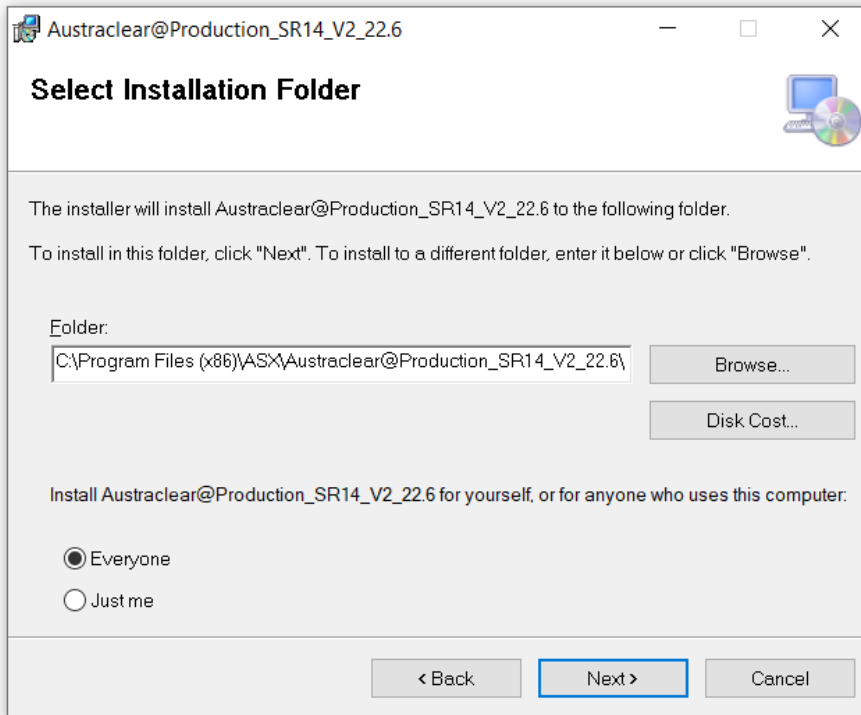

Save the file to the Desktop or to a suitable location on the C:\ Drive. **This file is password protected**. For access, please call Austraclear Service Desk on 1300 362 257 or email service.desk@asx.com.au.

Double Click on *EXIGOCSDInstaller_2.22.6_PROD.msi* icon to launch the installation. Click **Next** to proceed with the installation.

SAMPLE Screen

Choose **Everyone**. Keep the default path as it is, click on **Next**

The “Confirm Installation” window will appear, please click on **Next** to install.

Once the Installation Complete window appears, click on **Close**. This confirms a successful installation.

2 **Creating a Shortcut**

A shortcut should have been automatically created in the Start Menu under:

Start → Programs → EXIGO CSD → **Austraclear SR14 - Production_R5_V2.22.6**

We recommend that you create a shortcut on the desktop for easy access to the new system.

Open *Explorer*, and go to

C:\Program Files (x86)\ASX\Austraclear@Production_SR14_V2.22.6

1) Right Click on the file *EXIGOCSD.exe*, and select **Create Shortcut**. You can then drag the shortcut onto the desktop, or

3 **Next Step**

Once the software has been successfully installed please proceed onto the appropriate File Deployment Guide (ASXNet or Internet).
